YES*tation* Mini

Our Third-Generation, Thin Clients Pack
HUGE Value in a Small Footprint

The YEStation Mini (2242) is Affirmative's most popular model because of its economic value, providing the performance and legacy compatibility in entry level thin clients which the competition no longer offers. The YEStation Mini is powered by an Intel-compatible AMD 466 processor and solid state components running Microsoft Windows CE6. It is 35% smaller, 20% faster, uses 30% less power, and is 29% less expensive than other thin clients.

The YEStation Mini has a very small footprint (7.75 x 6 x 1.5 inches) and can be mounted vertically via optional VESA mount. The unit weighs only 1.5 pounds allowing for optimal mounting options, and low shipping costs.

The YEStation Mini provides ICA, RDP, Quest, and 2X clients standard and is compatible with most other VDI clients supported by Windows CE6. The YEStation Mini includes the Internet Explorer 6 browser locally for access to web based applications and is the perfect Internet terminal for IBM iSeries and OS/400 users. Terminal-style 122-key, 5250/PC keyboards are supported with Affirmative's keyboard drivers and map files. YEStation Mini also includes VPN client, Acrobat Reader, Microsoft Office Viewers, and USB disk drive support. No network cable? Go wireless with an optional USB wireless adapter.

The YEStation Mini truly has the best price/performance in the industry. Backed by Affirmative's superior technical support and 26 years of thin client experience specializing in IBM AS/400 and iSeries environments, the YEStation Mini is a smart enterprise-wide solution.

Why Affirmative thin clients?

A thin client is a display terminal that can support local printers and other PC peripherals, such as scanners and wireless LAN adapters. Thin clients allow the user to work with Windows, web browsers, UNIX, and IBM mainframe applications without moving any files to the local desktop. This eliminates the concern for local backups and unauthorized applications. Affirmative thin client power consumption is only 10% of a typical PC reducing total electrical cost.

Thin clients are a cost effective alternative to the PCs and workstations widely deployed in business operations. They are somewhat less expensive to buy, but extremely less expensive to operate and maintain. Thin clients have no disks drives to crash, no viruses, no productivity-robbing games or movies, and no unauthorized file transfer. Since data is not stored locally, thin clients provide an ultra-secure environment if one is lost or stolen; also all YEStation models can be physically secured with a Kensington lock.

YES*tation* **Mini** Hardware Specifications

Items	**Specifications**
Processor	AMD Gx466 + CS5536
I/O Peripheral & Communication	10/100 Mb Ethernet (RJ45) One Parallel Printer Port PS/2 Keyboard Port Three USB Ports (Front x2, Rear x1)
Other Support	PXE Enabled on BIOS Built-in Auto. Power-on Wake On LAN Kensington Lock Support (x2)
Optional Module Support	USB Wireless 802.11 b/g Adapter VESA Mounting Kit
Display	VGA Video (1600 x 1200)
Memory Support	DDR 128MB Only Flash Memory: 256MB
Environmental Temperature	Operating: 5° C to 35° C (41° F to 95° F) Storage: -10° C to 60° C (14° F to 140° F)
Relative Humidity	90% Maximum, Non-Condensing
Power	External Power Supply, 100-240 Volts AC, 50-60 Hz, 12V/2.0A
Regulatory Compliance	FCC, CE, UL-Approved, ROHS, GS
Dimensions (WxDxH) Weight	7.75 x 6.0 x 1.0 in 1.5 Pounds

Optional VESA Mount

Model 2242 Windows CE

-128MB DDR RAM/256 Flash
-ICA, RDP, 2X, Quest
-PowerTerm Terminal Emulator
-Affirmative exclusive viewing modes for IBM 5250 and
3270 Users; choose Text, Windows, or GUI at no extra cost
-YESterm II TN5250 emulation w/fat finger buttons (optional)
-Microsoft Office & PDF Viewers
-PPOE, PPTP, L2TP
-Local IE6 Web Browser
